# ALTONA SITE UPDATE

---

## 1. Closure of Manufacturing at the P.O.D. plant

- Production of Propylene Glycols and Polyols ceased in August
- Bulk product deliveries from the site will cease in November
- Decommissioning of the manufacturing plant and utilities are underway
- Warehousing and distribution continue at the site with imported Propylene Glycols and Polyols
- Services modification works to support Dow and tenant operations are in progress
- Demolition work is planned for late 2020

## 2. Personal Injury Performance

- Last reportable injury was May 2019 – contractor required stitches to a cut finger

## 3. Loss of Containment Performance

- ZERO recordable containment loss events

# REGULATORY COMPLIANCE

---

- EPA
  - License compliance assessment last completed in December 2018
  - APS and NGRS reporting completed in September 2019
  
- WorkSafe
  - There have been no reportable events
  - Major Hazard Facility de-registration will be completed
  
- City West Water
  - No license or permit breaches

# ALTONA REMEDIATION UPDATE

- The implementation of the Clean Up Plan is progressing well
- New Environment Protection Act:
  - New provisions for the relationship between companies and the EPA from 1 July 2020
  - We are discussing with the EPA how remediation project will comply
- Update on the Shell Recycling Project
