

EMT 2018

ANZ LOGISTICS

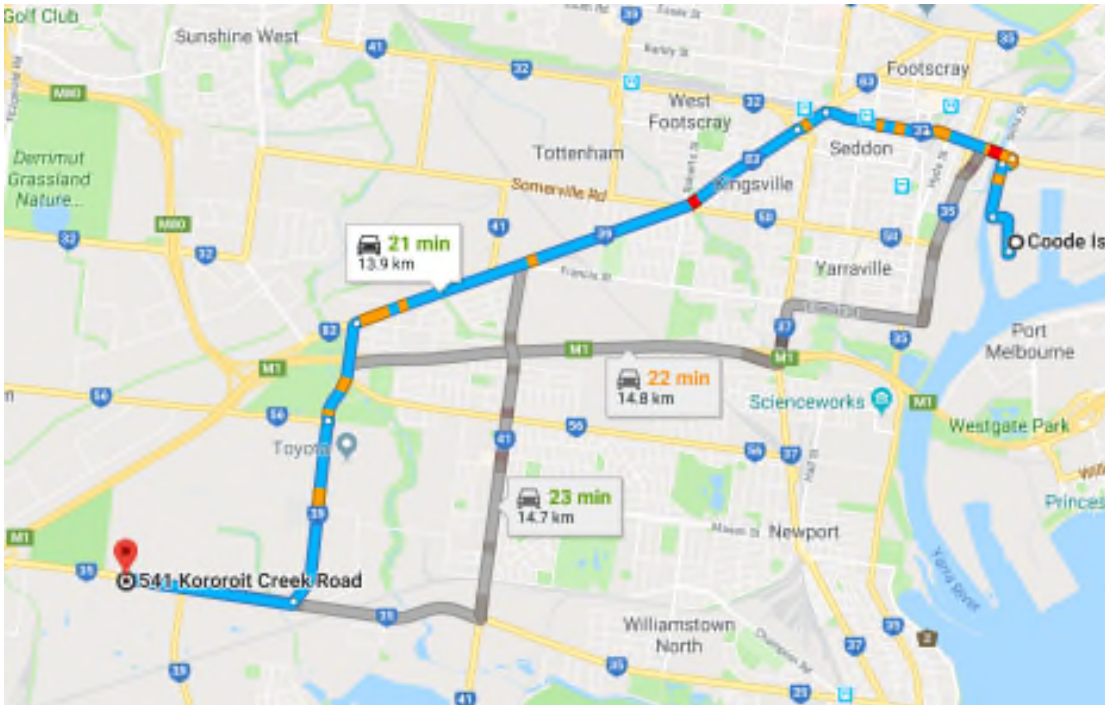

Altona Site

- Logistics are involved in all manner of distribution via all modes across Australia
- Specifically around the Altona site - Raw materials and finished products, packaged goods, Propylene Oxide and Polyols and Glycols

Altona Site

- Propylene Oxide – DG material needs to travel on dedicated routes from Coode Island Terminals to Altona - FBT Transwest

DOW CONFIDENTIAL – DO NOT SHARE WITHOUT PERMISSION

Altona Site

- Finished product leaves the Altona site in Drums, IBCs, Iso- tanks and Tank trucks depending on end use destination
- Dow selects only works with high quality Safety providers with a stringent selection process
- Safety is a non negotiable and is critical to all that we do – if we cant do it safely we wont do it

- **Any Questions?**
