# DOW CHEMICAL ALTONA UPDATE

ACNCG MEETING  
JUSTIN JONES & CAMILLO COLADONATO

*13/2/2020*

**DOW RESTRICTED**

# DOW ALTONA SITE UPDATE

---

## 1. Closure of Manufacturing at the P.O.D. plant

- Final stages of decommissioning of the manufacturing plant are underway
- Warehousing and distribution continue at the site with imported Propylene Glycols and Polyols
- Services modification works to support Dow and tenant operations are in progress
- Demolition work is planned for late 2020 / early 2021

## 2. Personal Injury Performance

- Last reportable injury was May 2019

## 3. Loss of Containment Performance

- ZERO recordable containment loss events

## REGULATORY COMPLIANCE

---

- EPA
  - License compliance assessment scheduled for Feb 2020
  - APS and NGRS reporting completed in September 2019
  
- WorkSafe
  - There have been no reportable events
  - Major Hazard Facility de-registration submission is being prepared
  
- City West Water
  - No license or permit breaches

## ALTONA REMEDIATION UPDATE

---

- On 3 February 2020 EPA issued a new draft Clean Up Notice requesting a “total assessment” of the site:
  - The current CUN will be revoked
  - A new Clean Up Plan to be developed
  - The new Clean Up Plan will have to be verified by an EPA-appointed environmental Auditor
- In the interim, all the existing monitoring, assessment and remediation works will continue with modifications as required
