3X Petrochemical Odour on Maidstone St.
(732) 11/11/18 20:33 pm; SSE 6-10 knots (Plausible)
(733) 12/11/18 13:22 pm; E-SSE 2-6 knots (Plausible)
(734) 12/11/18 22:20 pm; NNE 6-7 knots (Plausible)
Plausible Complex - No odours detected with investigation, wind consistent with possible complex

5X Petrochemical Odour at Charles Rd.
(728) 8/11/18 11:57 Wind SW 4-14 knots; (Unlikely)
(729) 8/11/18 23:36 Wind NW 0-2 knots; Report of smoke was likely steam (Plausible)
(730&731) 9/11/18 06:00 & 14:34 Wind N-NW 6-14 Knots during the day. Slight odour in buffer. (Olefins)
(735) 19/11/18 00:10 Wind NW 3 knots. Odours not detected at ETP/site boundary. (Plausible)

EAL

November 2018

(737) Low Frequency Noise 25/11/2018 05:43 Galvin St
Wind SW to WSW 7-11 knots.
Not associated with flaring. No low frequency noise sources identified in the complex.

Source Unknown; Unlikely Complex

(736) Flare Noise; 24/11/18 20:30; Spear Crt.
Wind S-SW 5-11 knots.
Flaring due to offspec plant incident.

Source Inside Complex. Qenos Olefins

EAL

December 2018

Petrochemical Odour on Maidstone St.

(738) 5/12/18 13:35 pm; Wind SSE 7-13 knots (Plausible)
(742) 23/12/18 12:34 pm; Wind SE-ESE 4-8 kts (Plausible)

Plausible Complex - No odours detected with investigation, wind consistent with possible complex

Petrochemical Odour at Charles Rd.

(740) 16/12/18 11:17 Wind NNW 15-18 knots;
No Odour detected with on site investigation.
Wind consistent with odour originating from the complex.

Source Unknown; Plausible Complex

EAL

December 2018

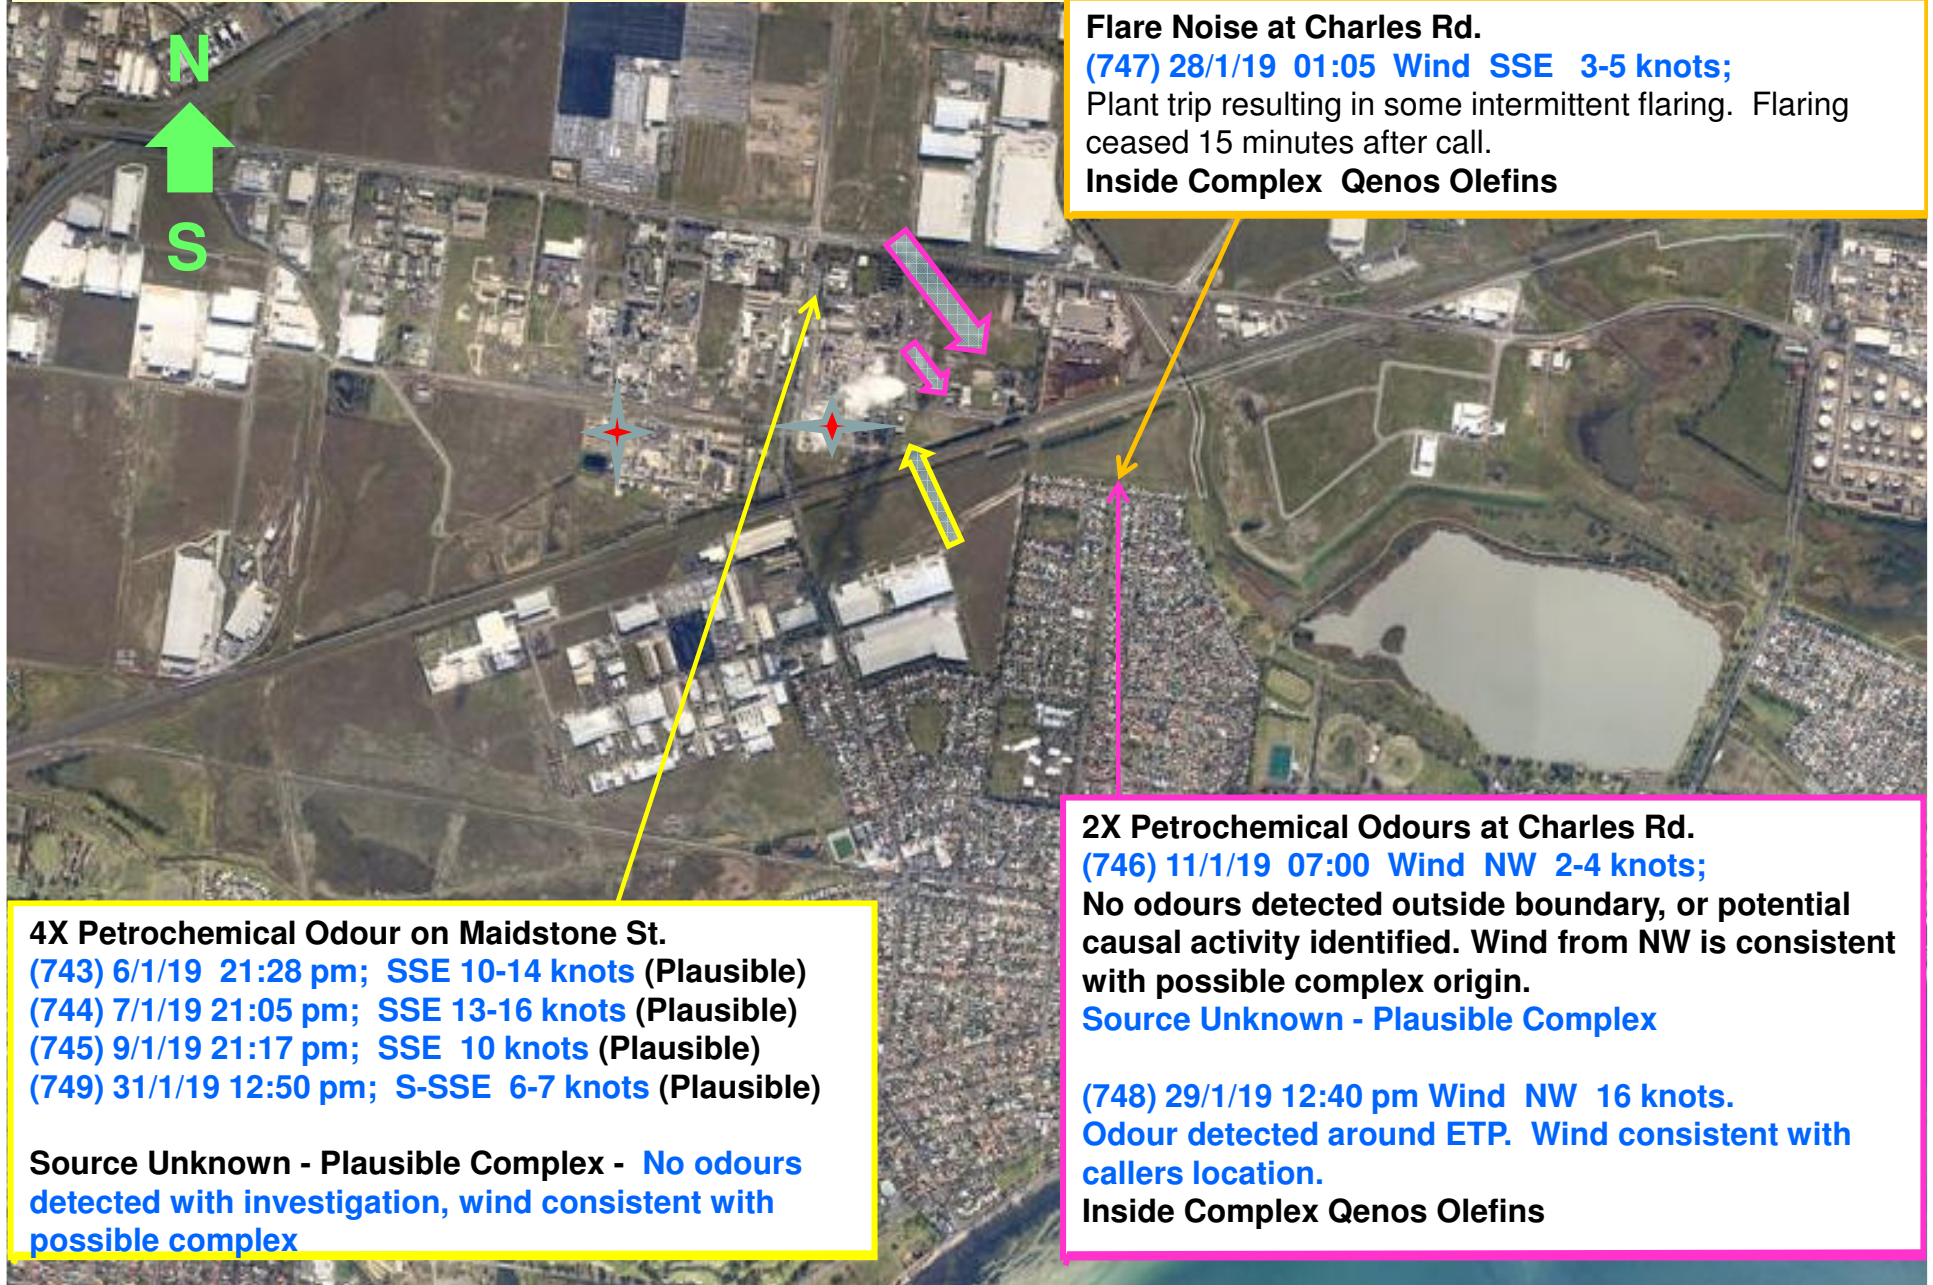

Roaring Noise at Civic Pde.
(739) 5/12/18 21:58 Wind SW 6-9 knots;
Complex plants running steady. No flaring. No noise source identified. Olefins noise meters show no variation. Caller reported noise had ceased whilst calling EAL.
Source Outside Complex

Rumbling Noise at Charles Rd.
(741) 16/12/18 10:29 Wind W-WSW 10-13 knots;
Complex plants running steady. No flaring. No noise source identified. Olefins noise meters show no variation.
Source Unknown; Unlikely Complex

EAL

January 2019

Flare Noise at Charles Rd.
(747) 28/1/19 01:05 Wind SSE 3-5 knots;
Plant trip resulting in some intermittent flaring. Flaring
ceased 15 minutes after call.
Inside Complex Qenos Olefins

4X Petrochemical Odour on Maidstone St.
(743) 6/1/19 21:28 pm; SSE 10-14 knots (Plausible)
(744) 7/1/19 21:05 pm; SSE 13-16 knots (Plausible)
(745) 9/1/19 21:17 pm; SSE 10 knots (Plausible)
(749) 31/1/19 12:50 pm; S-SSE 6-7 knots (Plausible)
**Source Unknown - Plausible Complex - No odours
detected with investigation, wind consistent with
possible complex**

2X Petrochemical Odours at Charles Rd.
(746) 11/1/19 07:00 Wind NW 2-4 knots;
No odours detected outside boundary, or potential
causal activity identified. Wind from NW is consistent
with possible complex origin.
Source Unknown - Plausible Complex

(748) 29/1/19 12:40 pm Wind NW 16 knots.
Odour detected around ETP. Wind consistent with
callers location.
Inside Complex Qenos Olefins
