Enviropacific Corporate Update

Enviropacific accepted an offer by leading Australian private equity fund, Next Capital, to make a significant investment in the business, which included changes to the Board of Directors.

The previous chairman, Tony Shepherd AO, will become a non-executive director.
The founding Partner of Next Capital, Patrick Elliott, is the new chairman.

Current non-executive director Ian Watt AC will step down and be replaced on the board by Bing Jiang from Next Capital Investment.

These changes don't have a significant impact on our day-to-day operations, they reflect an exciting development for the company as we embark on our next stage of growth.

Future Community Actions

- **An open day for the NDD plant is schedule. With permission, we will send an invitation via the ACNCG communications process to ACNCG members**
 - **If you would like to have a walk through prior to then, please let us know a time that suits you**
 - **Other ideas and suggestions to Solve@enviropacific.com.au**
-

A hand is shown at the bottom left, holding a large, billowing cloud of reddish-brown dust or soil that rises into the air against a black background. The dust is captured in mid-air, creating a sense of movement and volume.
